

The Stinger

www.asphaltkingdom.com

One person self contained wheeled heat lance that makes crack preparation easy, fast and efficient. An all in one portable heat lance system.

1-866-399-5562

The Stinger is a portable heat lance on wheels. The unit is a one person operation, ideal for the medium to small pavement maintenance contractor who needs a quality heat lance but does not have access to a large tow behind compressor. The Stinger comes complete with electronic ignition and stainless steel burner and regulator. A 25 foot hose kit makes for easy access to cracks or the lance can be maneuvered with the lance in its holder as shown.
